ABOUT US

INDUSTRIAL SOLUTIONS THAT DRIVE YOUR SUCCESS

CK Power Family of Companies is a family owned, strategic collection of five divisions specializing in **manufacturing, distribution, and aftermarket services** for the industrial sector. With nearly 100 years of expertise, we navigate business complexities, drive innovation, and provide **exceptional product support** to keep industries moving forward.

But we're more than just a business partner—we're family. Our commitment to integrity, reliability, and long-term success is reflected in every solution we deliver.

Our divisions work together under one strategic umbrella, seamlessly integrating their strengths to **solve problems** and **deliver results faster**. By collaborating across disciplines, we can **reduce lead times, optimize production**, and pass on **cost savings** to our customers, all while driving innovation that creates lasting impact.

MISSION STATEMENT

Our mission is to continuously expand product and service offerings in the marketplace, ensuring sustained growth, relevance and an enhanced customer experience.

AMERICAN MANUFACTURING

- Multiple Locations
- In-house Manufacturing
- Contract Manufacturing

TRUSTED DISTRIBUTION

- Top Brands
- Multiple Dealer Networks
- Advanced Training & Support

AFTERMARKET SERVICES

- Comprehensive Solutions
- Responsive Support
- Transparent Repair Options

ENGAGE WITH US

At CK Power Family of Companies, we thrive on strong relationships and strategic acquisitions. By investing in like-minded companies, we empower our divisions and partners to succeed. If you're looking for innovative solutions and a trusted partner to help drive your success, we're here to help. Come to us, and let's redefine what's possible.

"They're committed to doing what's right by the customer. In good and challenging situations, they step up."

POWER SOLUTIONS PROVIDER

CK Power is a trusted manufacturer and distributor of off-highway power solutions, delivering engines, generators, and comprehensive aftermarket support to keep industries running. Through our three specialized divisions—*Power Products*, *Power Systems*, and *Parts & Service*—we provide both prime and standby power solutions designed for reliability and performance. Each division offers diesel, natural gas/LP, and hybrid configurations that meet current EPA standards, including Tier 3, Tier 4, and Tier 5 requirements.

POWER PRODUCTS

Prime power generators, high-performance industrial power units and marine engines built for seamless integration—each engineered for efficiency and reliability in every application.

POWER SYSTEMS

Standby and backup generator solutions, supported by expert engineering to guide customers from bid specifications through installation and beyond.

PARTS & SERVICE

Comprehensive engine and off-highway equipment support, ensuring **No Down Time**—wherever and whenever you need us.

STEADY CONTINUOUS POWER

INDUSTRIAL ENGINES

Kubota Engines
(13.3-215 hp)

John Deere Engines
(74-908 hp)

Custom Power Units
(5-908 hp)

INDUSTRIAL GENERATORS

Portable Generators

- **Kubota GL Series**
(7-14 kW)
- **CK Power Portable Generators**
(7 kW)

CK Power Mobile Generators
(12-1250 kW)

CK Power Stationary Generators
(12-1250 kW)

CK Power Skid Mounted Generators
(12-625 kW)

CK Power Containerized Generators
(500-1250 kW)

2G by CK Power Demand Response Generators
(620-1000 kW)

CK POWER PRODUCTS, *continued* >

MARINE POWER

CK Power Marine Generators
(40-300 kW)

Marine Auxiliary Drive Units

(99-600 BHP @ Max RPM)

Marine Auxiliary Generators
(60-100 kW Prime 3-Phase 60 Hz)

Marine Propulsion Generators
(100 kW / 803 hp)

GENERATOR AUXILIARY EQUIPMENT

CK Power Light Towers
(12.2-15.4 hp / 9.1-11.5 kW)

Wherever and whenever you need us, CK Parts & Service delivers

NO DOWN TIME

YOUR CONCEPT, OUR CRAFTED PRECISION

US-BASED CONTRACT MANUFACTURING SOLUTIONS

Consolidated Machine & Welding (CM&W) is a US-based leader in contract manufacturing, providing metal fabrication, finishing, and post-fabrication services that transform OEM concepts into turnkey solutions—delivering individual components, subassemblies, or complete products. Strategically located in the heart of the Midwest, we efficiently serve customers nationwide with scalable capabilities that seamlessly integrate with your designs. Whether you're a startup or an established OEM, our solutions adapt to both small and large-scale production, ensuring your needs are met with flexibility and precision.

EMPOWERING LEADING BRANDS

119,000 sq.ft. of space and a central location provide the capacity for faster, smarter, and more reliable delivery.

Cutting-edge equipment and automation ensure agile, consistent production you can trust.

ISO 9001:2015 certified for quality and safety, providing confidence in every product we deliver.

CM&W SERVICES

Four Amada lasers with automation, capable of high-precision cutting on a variety of materials, handling sheets up to 7' x 14' and 1" thick.

Precision milling, turning, and fourth-axis machining for seamless component integration.

High-precision turret punching for producing parts with holes, louvers, and knockouts.

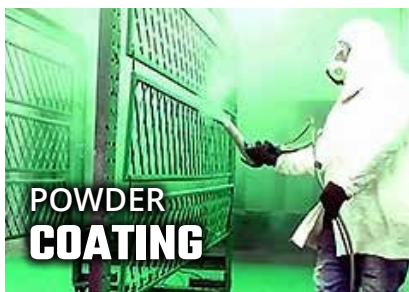

Custom shaping and forming of metal tubing for functional designs, with multiple benders and tooling available for square, rectangular, and round tubing of various sizes.

Robust forming capabilities for parts up to 14' long, with 50-240 ton brakes and versatile bending and folding equipment.

MIG, TIG, and robotic welding solutions for high-volume and short-run applications.

Durable, corrosion-resistant finishes with a full range of colors and a four-stage phosphate wash in a 10' x 30' booth.

Dedicated space for assembling everything from simple components to full product builds.

Stocking programs, outdoor storage, and drop shipping for seamless logistics.

HAYES®

WE'VE GOT CONNECTIONS

POWER TRANSMISSION COMPONENT MANUFACTURER

Hayes Manufacturing is a world-renowned producer of durable, American-made power transmission components for leading OEM equipment brands. Our expert engineering team works closely with OEMs to ensure seamless integration, enhancing both efficiency and reliability. Through our extensive international distributor network, we provide fast access to replacement parts, improving your customers' experience and strengthening your reputation for dependable service.

ENHANCING EQUIPMENT PERFORMANCE AND RELIABILITY

Expert engineering support for seamless integration and optimized equipment performance.

A global distributor network providing quick access to replacement parts, boosting customer satisfaction and service reliability.

ISO 9001:2015 and ISO 14001:2015 certifications, ensuring industry-leading quality standards.

HAYES COMPONENTS

COUPLING SOLUTIONS

Flywheel Couplings

Fits SAE sizes 6-1/2 to 14, housings SAE 6 to 1, and non-SAE engines including Kubota, Cummins, Deutz, Ford, GM and others.

- Hayes Original Flywheel Coupling
- HEX-FLX Flywheel Coupling

Flexible & Interchangeable Couplings

Modular design enables quick installation, easy maintenance, and hassle-free component swaps.

- Hayes Flexible Jaw Coupling
- L-Series Coupling
- Curved Jaw Coupling
- Inserts
- Pump Motor Adapters

SHAFTS & SUPPORT SYSTEMS

Stub Shafts

Directly transmit torque from engine to driven equipment for standard in-line applications.

Dyno Drive Shafts

Engineered for high-strength alignment and torque transfer in engine testing and dynamometer setups.

Yoke Drive Couplings

Connect shafts while accommodating misalignment, vibration, and axial movement, delivering precise and reliable torque transfer.

Bearing Supported Stub Shafts

Carry side loads without stressing the crankshaft. Sizes 1-7/16" to 2-1/2". Grease-filled, oil-filled and permanent sealed options.

ENGINE & POWERTRAIN MOUNTING

- Engine Housings
- Brackets & Adapters

APPLICATION SPECIFIC SOLUTIONS

- Marine & Irrigation Drives
- Generator Drives

CUSTOM PARTS MACHINING

TRANSPARENT REPAIRS, TRUSTED PERFORMANCE

OFF-HIGHWAY SERVICE & REPAIR SHOP

Rocky Mountain Powertrain (RMPT) is a trusted off-highway service and repair provider, specializing in engine, powertrain, and OEM equipment rebuilds and refurbishments. As your one-stop solution, we offer flexible repair plans, expert sourcing for hard-to-find parts, and rigorous dyno-testing to ensure optimal performance. Trusted nationally by OEMs and equipment dealers, our team of expert technicians helps preserve the longevity and reliability of your equipment, ensuring it performs at its best for years to come.

MAXIMIZING YOUR EQUIPMENT'S LIFESPAN

Authorized service center for top OEM brands, offering flexible repair support.

Expert sourcing for hard-to-find parts, ensuring quick turnaround times.

Rigorous dyno-testing to validate performance and quality standards.

RMPT SERVICES

Specializing in off-highway transmissions, axles, PTOs, and other powertrain components.

Complete engine rebuilds and replacements with in-house dyno testing.

Cost-effective repairs and refurbishments to restore equipment to like-new condition.

Maintenance, load bank testing, and engine rebuilding.

Precision in-house machining for heavy-duty diesel engines including crankshafts, engine blocks, cylinder heads, and connecting rods.

Expert rebuilding of injection pumps, injectors, and turbos.

GO ANYWHERE, DO ANYTHING

HEAVY EQUIPMENT MANUFACTURER & SUPPLIER

Terramac manufactures rubber-tracked crawler carriers and supplies wheeled dumpers built for maximum performance in demanding environments. Our crawler carriers feature low ground pressure rubber tracks for superior traction and reduced ground impact, while our wheeled dumpers deliver speed and maneuverability in confined spaces. With in-house production, upfit capabilities and a global dealer network, Terramac provides customers with tailored solutions and ongoing support.

EQUIPPING YOU FOR SUCCESS

Proven rubber track technology delivers low ground pressure and excellent maneuverability, dispersing the carrier unit's weight to meet diverse jobsite needs.

With over 100,000 sq. ft. of facility space across two buildings, each piece of equipment is tailored to unique project requirements.

A full-line global dealer network provides localized sales, flexible rentals, and exceptional aftermarket parts and service.
